اميرحسين صادقيان

Front-end Developer

درباره من

I started my professional journey in front-end development in 2022, and since then, I have gained valuable experience in designing and implementing modern user interfaces. I have advanced proficiency in Java Script, HTML, and CSS, and I specialize in React and Tailwind CSS for building efficient and scalable front-end solutions.

I have hands-on experience working with APIs and interactive UI components, always striving to enhance performance and user experience. Currently, I am expanding my expertise in Next.js and React Native to broaden my skill set and contribute more effectively to challenging projects

Front-end Developer

فن آوران اقتصاد پویا - تهران

HTML5 CSS JavaScript

Developed and optimized the e-commerce website's front-end using HTML, CSS, and Java Script, ensuring a modern and user-friendly experience.

Integrated with e-commerce APIs to fetch and display product data, manage shopping carts, and streamline the checkout process.

Improved website performance and loading speed based on Core Web Vitals, optimizing asset loading, implementing Lazy Loading, and minifying CSS/JavaScript files.

Collaborated with UI/UX designers and back-end developers to ensure seamless integration between front-end and server-side logic.

Tested and debugged the website across multiple browsers and devices to ensure responsiveness and cross-browser compatibility.

Implemented front-end SEO best practices to enhance search engine ranking and visibility.

Used Git for version control and contributed to collaborative development workflows.

Key Achievements:

- ✓ Reduced page load time by 30% through performance optimizations.
- ✓ Increased CTR and user engagement by improving UI/UX based on analytical insights.
- ✓ Fixed various UI bugs related to product display and checkout, enhancing website stability.
